

Izabela Penha de Oliveira Santos

PhD student in Environmental Science at University of São Paulo (PROCAM/IEE/USP). Her doctoral research is about resilience and socioenvironmental vulnerability in peripheral communities in Guarulhos, São Paulo, Brazil, under supervision of Dr. Ana Paula Fracalanza. Graduated in Environmental Engineering by State of Pará University (UEPA). Member of the Study Group and Environmental Governance Monitoring (GovAmb). She participated recently in project developed through a partnership between USP and National Health Foundation (FUNASA), named “Methodologies for strengthening social control in sanitation management” in two municipalities of São Paulo. Currently, participates in the BlueGrass - the struggles for “blue gold”: from grassroots mobilizations for water to the internationalization of environmental policies. A multilevel analysis research project (partnership ANR-FAPESP 2013/50537-0). She is member of the project “Resilience and vulnerability at the urban Nexus of food, water, energy and the environment” (ResNexus). Has experience in the mainly subjects: socio-environmental governance, participative management, social learning, and environmental public policies.
